

BEYOND BOUNDARIES

at Old Talg's Mill

BIKE REPAIR

Beyond Boundaries offers a variety of services for bike enthusiasts of all ages. Whether it is simply fixing a flat tire and truing rims, making your ride more comfortable, or looking to maximize your performance in the sport, we are glad to help.

Sure, we do all of the other things too: fixing squeaky brakes, replacing cables and components, aligning derailleurs, overhauling headsets and bottom brackets; we even remove training wheels (or put them back on!) If you are looking for that one special item you saw on your buddies bike or in a magazine, we will be happy to place custom orders to fulfill your needs, and best of all..your wants.

There may be a turn-around time for repairs based on availability of parts and time required for lengthy repairs. We will hold bikes for one week following repair completion, with a \$5 per day charge beginning the 8th day of storage.

****See Miah for Pricing on ANY size repair.**
